

ECAM PRESIDENT'S SPECIAL NOTICE

Paul Shack-
President, ECAM
Board of Directors

Paul Shack has been a driving force behind the advancement of ECAM since 2020. With over 20 years of industry experience, Paul has risen through the ranks to become Vice President of Operations at Nor-Tec Group Ltd. From beginning as a level 1 apprentice, he has worked his way up the ladder as a Journeyman, Site Foreman, Superintendent, Project Manager and Operations Manager within Nor-Tec Group Ltd. Paul Shack has played a pivotal role in advancing the adoption and effective implementation of BIM practices within the construction industry. Alongside his professional accomplishments, Paul actively participates as a Social Committee member.

Low-risk VDV & security system electrical permits

ECAM is sharing the following notice from the City of Winnipeg's Planning, Property & Development Department regarding a change to the electrical permit process for low-risk VDV and security system installations.

Effective September 15, 2026, qualifying low-risk VDV and security system electrical permits will now be automatically issued. Applications must continue to be submitted through Permits Online.

While only select projects will be inspected, contractors are still required to submit an inspection request.

ECAM encourages members to review the City's information to understand which projects qualify and the updated permit process.
