

September Lunch & Learn September 21, 2023

The inaugural ECAM Lunch & Learn event, held at the Radisson on September 21, offered a dynamic platform for industry members to gather and expand their knowledge. Attendees began their day by sipping on coffee while engaging with exhibit booths sponsored by Wesco and MCW Consultants, providing valuable networking opportunities.

The event featured two insightful presentations. The first presentation, led by Joe Kasprick of Inspection and Technical Services, delved into the the 2020 National Construction Codes and provided updates on Bill 38.

The event continued with the second presentation, led by Don Hallock of Manitoba Hydro. Don shared vital information about the New E-Permit System, Bill 38, and the latest developments in inspections, equipping attendees with up-to-date knowledge.

Amidst the presentations, guests enjoyed a satisfying lunch that further fostered networking. The first ECAM Lunch & Learn marks the beginning of a series of four luncheons set to take place over the next year, promising ongoing educational and networking value for all ECAM members.
